### SUMMARY

Curious, detail-driven Product Designer blending creative intuition with user-centered thinking to craft seamless digital experiences. I design with empathy and strategy to not just make things look good, but work beautifully. With hands-on experience across all organizations, I specialize in turning complex problems into elegant solutions through research, storytelling, and thoughtful design.

### EXPERIENCE

- ❖ Freelance Product Designer, Amiron Ventures

Jan 2024

Winnipeg, MB (Remote)

Explored and validated design solutions for web and mobile applications across industries such as healthcare, finance, and e-commerce through wireframing, prototyping, and the development of high-fidelity designs.
- ❖ Freelance Product Designer, iT Central

Aug 2023

Kaduna NG (Hybrid)

Worked on Freelance UI/UX designs for multiple client projects, focusing on creating product-led solutions that drive user engagement and retention. Led designs of products like the Armed Forces Command and Staff College Jaji website and the AFCSC Learning Management System, Nigerian Air Force College of Nursing Sciences LMS, Lumi AI and more.
- ❖ Product Designer, Schoola

Jul 2023

Kaduna NG (Remote)

Led the design of the Schoola Learning Management System enhancing the learning experience for students. Optimized user interfaces for a range of educational products like the Schoola mobile app, Schoola website and Schoola LMS, mainly focused on conducting user research, testing, wireframing, prototyping and usability testing.

### EDUCATION

- ❖ Essence International School

2015 — 2020

High School Certificate, Kaduna

Obtained a Senior School Certificate (WAEC) after completing my junior secondary and senior secondary programmes.
- ❖ NIIT

2020 — 2023

Diploma, Software Engineering (Full Stack -Java Specialization) Kaduna

Acquired a Post Graduate Higher National Degree(HND) in Software Engineering (Full Stack).
